Bringing the BMW community together

We’ve expanded on a great idea.

Introducing the second generation of the first in its class: the 2007 BMW X5. Redesigned to offer more of everything that made the original BMW X5 so popular, the new X5 is longer and wider, with increased cabin space and an optional third-row seat. New, more powerful V-8 and six-cylinder engines offer excellent performance. A broad complement of innovative features and active safety technologies include Dynamic Stability Control with Brake Drying, Brake Stand-by and other enhancements, as well as Adaptive Drive system (included in Sport Package) and optional Head-up Display. The X5 for 2007: a perfect balance of everything that matters in BMW’s flagship Sports Activity Vehicle.

X5 4.8i is shown with optional running boards, Sport Package, and optional wheel style 214.

bimmerfest
Bringing the BMW community together

Universal appeal with a style all its own.

The 2007 X5 gets a bold, new look to match its dynamic personality. The X5 has a wider, sportier stance than its predecessor; the “face” and the power dome are more aggressively styled. Xenon Adaptive Headlights with Corona light-rings are standard. Five sporty light-alloy wheel designs allow personalized styling. Shadowline trim (included in Sport Package) updates the look of the front and rear windows. Standard exhaust tips come in either chrome (on the X5 4.8i) or stainless steel (on the 3.0si). The exterior door and tailgate handles on both models are painted to match the body, which is finished in one of nine stunning colors, including Platinum Bronze (start of production December 2006), Deep Green or Monaco Blue. And optional running boards provide an eye-catching and easy way for passengers to get into or out of this impressive SAV.

X5 4.8i is shown with optional running boards, Sport Package, and optional wheel style 214.

bimmerfest
Bringing the BMW community together

Class-leading comfort meets the lap of luxury.

The X5 offers many ways to create a luxurious interior, with available Nevada and Napa Leather upholsteries in a range of colors, as well as a choice of elegant trims: Dark Burl Walnut, Light Poplar, and Dark Bamboo Wood; and Graphite. There's even a choice of options for front seats, such as the Active Ventilated Seat Package that offers 20-way multi-contour adjustments, warming or cooling ventilation, and driver's-side massage function; or 10-way power front sport seats with manual thigh adjustment and memory system for the driver's seat, included with the Sport Package. Select the standard MP3-ready, 12-speaker sound system, or upgrade to the premium 16-speaker system, for powerful audio clarity. HD Radio™ and SIRIUS Satellite Radio options add to the listening pleasure. And overhead, an optional Panoramic moonroof with two oversized glass panels – one slides, both tilt – makes it easy for all passengers to enjoy the view.

bimmerfest
Bringing the BMW community together

Row, row, row: the new X5 merrily accommodates up to seven comfortably.

Big news for backseat passengers: the all-new 2007 X5 now offers an optional third-row seat,[1] so seven people can enjoy the X5's luxurious comfort and thrilling performance. Additionally, when equipped with the optional third-row seat, the second-row seatbacks can recline. Front-seat and second-row passengers can enjoy the customizable comfort of optional heated seats and four-zone climate control. And rear-seat passengers can enjoy an optional rear-seat entertainment feature that includes a fold-down 8-inch color screen, a six-CD/DVD Multimedia Changer, a pair of wireless headphones, and headphone jacks.

[1] Third-row seat is upholstered in Nevada Leather regardless of primary upholstery selected.

bimmerfest
Bringing the BMW community together

More room for everything. Except improvement.

The 2007 X5 makes the most of its functional storage capacity, both inside and out. With plenty of usable interior space, groceries and cargo are stowed with ease. Tracks in the cargo area (included in the Premium Package) allow larger items to be lashed down. Bicycles, skis and oversized gear are easily hauled via the integrated roof rack, using BMW load-carrying accessories. And an automatic tailgate (available spring 2007) gives easy access to the X5's cargo area, opening or closing the upper tailgate with the touch of a button.

bimmerfest

European interior shown.

Optional packages to make it personal.

A broad range of packages makes it even easier to customize the X5. The Premium Package wraps the X5 3.0si interior in Nevada Leather and Wood trim, a Panoramic moonroof, auto-dimming side- and rear-view mirrors with built-in digital compass, and BMW Assist™ with Bluetooth wireless technology. The Technology Package combines the on-board DVD-based navigation system, Park Distance Control, and the new rear-view camera, plus Voice Activation that controls navigation, the audio system, and hands-free phone calls. The Sport Package adds 10-way power front sport seats and larger wheels and tires, while enhancing handling and driving performance with Adaptive Drive technology. The Cold Weather Package keeps you warm with a heated steering wheel, three-stage heated front seats, and retractable, high-intensity headlight washers. The Active Ventilated Seat Package boasts 20-way multi-contour front seats, with active function and ventilation.[1] The Rear Climate Package offers back seat passengers four-zone climate control, plus privacy glass that reduces glare and interior heat. And the Premium Sound Package includes a high-fidelity 16-speaker sound system with Digital Sound Processing and a digital 9-channel amplifier for greater musical enjoyment.

[1] Requires optional Nevada Leather/Perforated upholstery, and must be ordered with Cold Weather Package or optional heated front seats. Not available with Leatherette.

bimmerfest
Bringing the BMW community together

Two engines, 35 more horses, better performance.

Both the 4.8-liter V-8 and the 3.0-liter inline six-cylinder engine models continue the X5's tradition of superior performance on the road. The V-8 engine's 350 horses and 350 lb-ft of torque catapult the X5 4.8i from 0-60 in 6.4 seconds.[1] The six-cylinder fires up 260 horsepower and 225 lb-ft of torque, to propel the X5 3.0si to 60 in only 7.8 seconds.[1] Both engines come equipped with BMW's STEPTRONIC 6-speed automatic transmission, now enhanced with new E-shift technology for faster and more accurate shifting.

[1] BMW AG test results. Obey local speed laws, and always wear safety belts.

bimmerfest
Bringing the BMW community together

Innovative features to help master the road.

Dynamic Stability Control (DSC) in the all-new 2007 X5 now includes BMW's brake-optimizing features – Brake Drying, Brake Stand-by and Brake Fade Compensation. And Dynamic Cruise Control, standard, automatically applies the brakes on gentle slopes to keep the vehicle at a constant speed.

Adaptive Drive (included in the Sport Package) combines Active Roll Stabilization and Electronic Dampening Control, to help keep the X5 level in the tightest of turns, and comfortable on different road surfaces. Optional Active Steering intelligently adjusts the steering ratio based on vehicle speed.

bimmerfest
Bringing the BMW community together

The new X5: always on the driver's side.

A host of additional safety and convenience options are available on the X5 to bolster performance – and confidence – behind the wheel. The ingenious, new Cornering Lights feature, integrated into the foglight housing, is activated when the turn signal is engaged. Based on steering angle and speed, reflectors then cast additional lighting up to 90 degrees, providing added illumination in the direction of the turn. The Comfort Access option allows keyless entry to the X5. The optional Technology Package includes a rear-view camera that offers a clear view of what's behind the vehicle; computer-generated guidelines shown on the navigation screen help maneuver when parking. And the optional Head-up Display, now height-adjustable, projects vital driving information – such as speed and rpm – easily within the driver's line of sight.
